

Kildesorteringsrummet i gården

Kære beboer,

- Kildesorteringsrummet i gården er kun til kildesorterede genstande i de specifikke beholdere. Papkasser skal være foldet helt sammen.
- Trækasser, metalkasser, malerspande, alt storskrald mv. skal stilles over på genbrugsstationen i Lüders P-hus.
- Containere må kun fyldes så låg stadig kan lukkes normalt.
- Benyt genbrugsstationen i Lüders P-hus, hvis containere er fyldt, og når genstande til genbrug ikke passer i containere. Der må ikke efterlades papkasser og andet på gulvet i rummet.
- Hvis containere overfyldes og/eller rummet roder tømmer renovationsfolkene ikke containerne, og det koster ejerforeningen besvær og penge at få tømt rummet.

Bestyrelsen

The recycle room

Dear resident,

- The recycle room in the yard is only for recycle items to be placed in the specific containers. Carboard boxes must be folded nicely together.
- Wooden-, metal-, painting plastic boxes and other items for waste may not be placed in the room for recycle items. Please use the genbrugsstation in Lüders P-house.
- Containers should not be overfilled (should still be able to close the lid normally).
- Please use the genbrugsstation in Lüders P-house, if containers are filled up and if items do not fit in size to containers. Do not leave any boxes or other items on the floor in the room.
- If the containers are overfilled and when items are left around in the recycle room, the waste collectors will not empty the containers which courses costs and other issues for our property association.
